Professional Summary

Soon-to-be B.Sc. Computer Engineering graduate (June 2026) and **AWS Certified Solutions Architect**. Passionate about solving real-world problems, with experience in building Android applications (Kotlin), developing frontend interfaces (Next.js), and automating data pipelines (Python). Backed by strong international work experience, demonstrating high adaptability and a solid grasp of cloud architecture.

Skills

Languages: Python, Kotlin, C/C++, SQL, JavaScript, HTML/CSS

Cloud & Architecture: AWS (EC2, S3, RDS, Lambda, IAM), System Design

Frameworks & Tools: Android Studio, Next.js, Tailwind CSS, Selenium, Git

Databases: MySQL, MongoDB, MSSQL

Experience

Aug 2020 – Oct 2022: Python Developer (Freelancer)

Fiverr

- Developed 10+ custom folder traversers using Python to automate complex data manipulation tasks.
- Delivered projects focusing on data sorting, structuring, and efficient algorithm implementation.
- Communicated directly with international clients to gather technical requirements and provide tailored software solutions.

Projects

JobAcer | Interview Simulation Web App

- Developed a Cloud native, microservices-based app for interview preparation.
- Upload job requirements and your CV and start the interview.
- The AI Interviewer will ask relevant questions based on your resume and job.

ElectriCost | Android App (Available on Google Play)

- Developed and published a mobile application in Kotlin to help users calculate and manage electricity costs efficiently.
- Implemented local database management using Room and handled asynchronous tasks with Coroutines.
- <https://play.google.com/store/apps/details?id=com.sorychan.electricost>

Python Automation & AI Scripts

- **Web Scrapers:** Engineered various automated scripts for real-time data collection.
- **Snake AI:** Implemented an AI agent capable of playing the classic Snake game using basic ML concepts and pathfinding algorithms.
- **SpeechToDocx App:** Created a tool integrating speech-recognition libraries to transcribe audio directly into formatted Word documents.

Education

Sept 2022 – June 2026: B.Sc. in Computer Science and Engineering

Technical University of Iasi (TUIASI), Romania

Relevant Coursework: Data Structures and Algorithms, Object-Oriented Programming, Database Management, Software Engineering, Low-Level Programming.

Certifications

AWS Certified Solutions Architect - Associate (SAA-C03)

Amazon Web Services (AWS)

April 2026

- Validated expertise in designing highly available, cost-efficient, fault-tolerant, and scalable distributed systems on AWS.

- Demonstrated knowledge of compute, networking, storage, and database AWS services.
